DIFFERENT WAYS OF LIVING

ARTWOOD

SINCE 1969

Is home decor, beautiful furniture, styling and creating amazing rooms a passion for you? That's exactly what Artwood have been working on since we were founded in Sweden in 1969. We design, import and sell furniture, textiles, lighting & accessories. Our intention is that you can combine our products to create a variety of interior styles from within our brand.

FOR MORE INFO VISIT WWW.ARTWOOD.NZ

MATERIAL CARE

General

Furniture should always be lifted not dragged when being moved.

Teak

Teak is a wood that has particularly good properties for production of furniture and interior fittings. It is hard, heavy, elastic and contains oils which gives it great resistance to moisture. We only use wood from Indonesian plantations to make our teak products. These are treated with lacquer in 3 steps to obtain a weathered worn grey colour. The treatment/lacquer will gradually fade over time after continued exposure to sunlight and water. Splits, cracking and slight movement should be expected as timber is a natural product.

Care: All of our outdoor teak dining tables come with a bottle of Golden Care Teak Shield. It can be purchased from your Artwood stockist and used on other teak products. Leave the furniture to weather for three months, then clean the furniture with a damp cloth. Apply Golden Care Teak Shield with a soft cloth, once dry the furniture may be used again. This process should be repeated every three months.

Failure to care for your teak products may void our warranty.

TEAK SHIELD
1 Litre
G60004

Outdoor Wicker

Maintenance free furniture woven by hand in all weather wicker, (polyethylene), on a rustproof aluminium frame. Recommended for both indoor and outdoor use, however not in freezing temperatures. May crack after prolonged exposure to strong sunlight and salt.

Care: We recommend regular washing with water and a soft scrubbing brush to remove dirt, dust and salt build up.

Cushions - Outdoor

Outdoor cushions are produced with quick dry foam and 100% solution dyed acrylic fabric. Cushions should not be left out in humid or wet conditions for prolonged periods. Any time cushions are exposed to wet conditions, they need to be dried thoroughly and over winter months we recommend storing cushions inside or under cover, as failure to dry thoroughly may result in mould or mildew.

Care: All covers are removable and washable in cold water, however, dry cleaning is recommended for all fabrics. Replacement cushions or covers are available to purchase in the event of damage.

Rattan

Our products are made from various types of rattan material, all from plantations in Indonesia. Kubu, slimlit, lacak and malaka are the materials we generally use. The surface is treated with water based/eco-friendly colouring varnish. Recommended for indoor use. When our rattan planters are left outside with plants they will break down over time.

Care: Brush off any dirt and wipe with a damp cloth. Colour may fade after prolonged exposure to sunlight.

Lanterns

Our lanterns are an indoor product but may be used outside. After use storage inside is recommended.

Concrete

Our concrete furniture is constructed entirely of natural materials such as granite stone flour, cement and water. The concrete is cast by hand, therefore some variation of thickness, colour and finish may occur. The products are then sealed with a finishing wax to provide protection from stains and moisture. The furniture should be treated with wax every 3 - 6 months depending on use and placement. We DO NOT recommend leaving concrete furniture outside uncovered over the winter months as this may result in cracking and moisture damage.

Care: We recommend spot cleaning with a mild detergent mixed with water. We do not recommend abrasive citrus household cleaning products that may strip the outer layer of protection. We recommend resealing the furniture with furniture wax every 3-6 months. In between waxing the products can be polished with oil to refresh the appearance. Every day olive oil would be suitable. Apply a generous amount of oil to saturate the surface and polish in a circular motion until the concrete is uniform and no longer absorbs the oil.

We have two products available for purchase which will help to protect and extend the life of your concrete outdoor furniture.

IMPORTANT: Any concrete product with a lip (Tonga and Dakota Coffee Table / Side Table) need to be kept under cover if being used outside.

Powder Coated Aluminium

Our powder coated aluminium ranges include Anson (frame) and Estepona. These products are constructed of aluminium, then powder coated for protection. They require very little maintenance and can be cleaned with a damp cloth as required.

Johnston Imports cannot be held responsible for any damage caused during attempts to clean furniture. We highly recommend that professional cleaners should be consulted. Please contact your local store for warranty terms.
