## **The 2023 Collection**

Sculptural and functional objects frame our collection with clean, honest, and contemporary designs that honour our passion for craftsmanship and material.

We define Sculptural Minimalism by merging the artist's meticulous attention to detail with the architect's vision and spatial understanding. The respect for nature's materials is integral to every piece, our passion for diligent craftsmanship is evident in every item, and each design is more than just interior objects. They add a statement to any room.

In 2023 we continue our exploration of the interactions between positive and negative spaces, new artworks are designed to complete contemporary spaces, and functional objects acclaim Sculptural Minimalism.

“We aim to design products with a sculptural approach - functional designs with character and expression that complements many interior settings. The additions to our classic series and the new sculptural designs epitomize the essence of Kristina Dam Studio; sculptural, functional, and honest materials.”

*Kristina Dam, Founder, Brand & Design Director.*

## Outline

The Outline series was articulated by a longing for a minimal essential space that pillars forward-thinking and outward-looking. The design exudes craft and humility with architectural clarity and grace with the understated details that reveal themselves upon closer inspection. Sleek lines of the Outline Desk create a graphic interplay of steel frames that holds the solid oak tabletop and drawers, giving the desk a classic yet contemporary look. With its airy frame, the Outline chair has a sculptural and minimal expression that creates a distinctive atmosphere. The clean and simple lines form the chair's frame, making it a modern sculptural chair that complements the workspace, dining area and contemporary spaces. Beautiful from any angle and crafted from high-quality materials, the Outline series are statement pieces ideal for standing freely in many spaces.

## Axis Side Table

The design language of Axis Side Table is not about portability or typical visual and physical lightness. It results from an experiment on space between permeability and concealment. The design of the Axis Side Table consists of geometrical shapes that form a solid, timeless side table with references to the classic bar trolley. It is a solid piece of furniture that, with its expressive wheels, makes the side table a moveable object. The clean construction has an architectural and sculptural expression, showcasing the warmth of the wood.

## Collector

The Collector series is informed by the notion that real connection is formed when the framing of the conversation, the meeting, and the meal is just right. The table and chairs in this collection are crafted with attention to minimalistic serenity and a timeless aesthetic. The refined details and honest craftsmanship make for a line of honest and inviting furniture.

## Minimal

Japanese principles inspire the Minimal series. The pared-back construction emphasizes the quality of craftsmanship and the simple elegance of the solid natural oak and the modern black frame. The interplay between the wooden frame and the slim cover adds a sense of exquisite ease to the indispensable pieces – a daybed and a bench. The soft foam mattress comes upholstered with Aniline leather, Nubuck leather, or Savak made from wool in earthy tones that reference the 1960s.

## **Modernist**

The Modernist series is a classic yet contemporary series that adds a refined elegance to living rooms and open office spaces. The sofa is sharply framed in stainless steel and then tender softness with generously proportioned upholstery. Our Modernist series is delivered in seven different upholsteries, from light beige bouclé and deep grey wool to the classic Danish Savak fabric. All durable materials are woven from selected fibres like New Zealand wool and alpaca. The tactility of each fabric epitomizes Scandinavian aesthetics in their truest form and makes each a creative expression of the slender steel frame.

## Bauhaus

The Bauhaus tradition is focused on form following function. At Kristina Dam Studio, we embrace this ideology of simplicity whilst maintaining our insistence on an inherent sculptural quality to every piece of furniture we design. The Bauhaus series is defined by the perfectly arched backrests, the circle-shaped tables, and the understated adornment of the perforated grid. The resilient powder-coating makes the collection suited for indoor and outdoor use in private homes as well as cafés, restaurants, or urban spaces.

## **Kristina Dam Studio Classics**

Over ten years, some of our adored designs have become classics; the Bauhaus Trolley, the Stool, and the Table. With inspiration from the German Bauhaus school, the design of the Bauhaus Trolley is light and graphical. The design of the Stool and Table is unequalled and graphic and has made both best sellers in our furniture collection.

## Japanese Tray Tables

Inspired by the Japanese design tradition and the incense boxes of the Edo era, Kristina Dam Studio has envisioned a Scandinavian take on versatile tray tables. Three sizes, multiple functions, one clean look. The rectangular table turns into a luxurious bench or stylish seat when topped with the fitted cushion in delicious cognac nubuck. Our tables and trays are handcrafted in oak and treated oiled oak. The trays are now also available in a beautiful oiled smoked oak.

## **Relief Artwork**

With references to the one-of-a-kind paintings created for our anniversary exhibition during 3daysofdesign in Copenhagen 2022, the Relief Artworks' patterns are graphic abstractions from the large paintings. The Relief artworks create a unit and function as a single or paired artwork. The tone-in-tone-coloured embroideries on canvas in powder-coated frames add a tactile feeling to contemporary spaces.

## Silhouette Illustration

As an elemental foundation in each collection, new graphic illustrations are introduced each season, creating a solid reference to the beginning of Kristina Dam Studio. The Silhouette Illustrations are new limited-edition illustrations printed on grey cardboard, adding tactility to homes. The abstract artworks express the interactions between positive and negative spaces. Framed in a black aluminium frame.

Produced at HKI in Denmark, which aims to help people outside the work market. Each edition is hand signed, numbered and restricted to 100 pieces.

## **Serif Relief**

The Serif Relief focus our attention on elements of Kristina Dam Studio's early illustrations. An interplay between form, material and light is created on the wall and adds an interesting depth to the room. The textured surfaces of the work enforce this magnetic effect, vivid and tactile, made from remnants of the textile industry by Indian women in a social project.

## Stitched Leather Box

Inspired by the saddle maker's detailed needlework and the beautiful hatboxes of the Victorian era, Kristina Dam Studio has proposed a Scandinavian take on the contemporary storage box. Two sizes, multiple purposes, and one stunning look. Crafted by hand from superior brown leather with contrasting elegant mending.

## Serif Vases

The Serif Glass vases are designed with subtle curves inspired by the serif known from typography. Simple curves are a signature to many Kristina Dam Studio designs and are no exception in creating the Serif Glass vases where the curve is unobtrusive. The vases are crafted from mouth-blown opal white glass and function as a sculpture or for displaying flowers graphically.

## **Mesh Candle Holder**

The Mesh Candle Holder is designed with references to our Grid series and with inspiration from the time of brutalism – honouring pure materials, geometrical shapes, and unusual shapes. The clean design is suitable for many spaces where cosy lighting is desired. Depending on the eye of the beholder, the mesh pattern creates interesting patterns from different angles.

## 3daysofdesign

During 3daysofdesign in Copenhagen, Kristina Dam Studio showcased unique artworks and sculptures with novelties in the home of fashion connoisseur Kim Grenaa, owner of Grenaa Creative & Grenaa Creative Living. The 3daysofdesign 2022 event was the highlight of celebrating our tenth anniversary.

As a prelude to the exhibition, Kristina Dam Studio refurbished Kim Grenaa's apartment to create a unique experience before 3daysofdesign. Unlike others in Copenhagen, the modern apartment has a stunning window façade and beautiful wooden floors, located in a historic factory building with a unique architectural expression in the city centre.

## Framing 10 years

The Outline Desk was displayed beautifully, being the focus throughout our anniversary exhibition. The Outline Desk was articulated by a longing for a minimal essential space that pillars forward-thinking and outward-looking. The design exudes craft and humility with architectural clarity and grace with the understated details that reveal themselves upon closer inspection. Sleek lines create a graphic interplay of steel frames that holds the solid oak tabletop and drawers, giving the Outline Desk a classic yet contemporary look.

## Carlsbergbyen

Since 1847, Carlsberg has had production and headquarters in the Copenhagen area, known as Carlsbergbyen. In 2006, Carlsberg moved their production from Copenhagen to Fredericia, which opened up new exciting opportunities in Carlsbergbyen, where they have worked to transform the area into Copenhagen's new urban district with housing, urban spaces, shops, institutions, city life, culture and business premises.

In the historic surroundings is the 1920s Mineralvandsfabrikken, one of the few listed buildings that have been converted into housing. International star architect Dorthe Mandrup is behind the new two-storey luxury homes on top of the beautiful, newly renovated industrial property.

Grenaa Creative, led by Kim Grenaa, has been responsible for the interior design of one of the unique apartments, consisting of bright rooms, concrete floors, oak panels and kitchens in steel and marble. For the decor, Kim Grenaa has curated a selection of Kristina Dam Studios' designs, which beautifully match the apartment's materials.

The architecture and materials of the apartment is the obvious setting for Kristina Dam Studio, where the common thread in all designs is simple and graphic. Furniture from Kristina Dam Studio is all made of natural and solid materials, and only the monochrome colour palette or the natural colour of the materials is used. The Bauhaus table with the Collector chair perfectly complements the apartment's materials, and the Modernist sofa brings tactility to the living room and the beautiful oak panels.

## Gl. Kongevej 109

Three hundred years ago, Gl. Kongevej in Frederiksberg, Denmark, was the royal family's route out of the city before Frederiksberg Allé was built in the 1700s. Today it is a popular high street, offering an array of local and exclusive shops and brands.

Gl. Kongevej 109 houses RevitalizeDNA, an exclusive beauty clinic focusing on their client's well-being. The interior was recently updated with soothing colours and a high focus on designs in natural materials that together create a space of calmness perfect for a relaxing treatment.

Darling Creative Studio is the creator of the updated interior and has selected our Geometric Wall Lamp Small throughout the space creating a coherent and minimalist expression. At the same time, the Collector Chair, Stool and Table, all in oiled oak, add a warm and welcoming feeling to the tranquil space.
